

Business Continuity Plan

Jett Capital Advisors, LLC (“Jett Capital”) has developed a business continuity plan that will be activated in the event of a significant business disruption, such as a natural disaster, power outage or other event. Our plan is intended to permit us to continue critical business operations during such a disruption.

Our plan addresses interruptions to our normal course of business, and outlines the actions Jett Capital will take in the event of a building, city, or regional incident, including: Continuous processing support by personnel located in unaffected facilities; Relocating technology or operational personnel to alternate regional facilities; Switching technology data processing to an alternate regional data center. Regarding all circumstances within our control, Jett Capital’s recovery time objective for business resumption, including those involving a relocation of personnel or technology is four (4) hours, depending upon the availability of external resources. To support our planned recovery, our providers maintain back up facilities, including secondary data centers. The back-up facilities are located well away from our providers’ facilities, in order to diminish the effect of a regional disruption.
